▶ LED indicator and status

▶ Adjustable additional features

50-100% motor speed / Pause 0-60 seconds / Obstacle control detection time 0.1-3 sec / Opening/closing actuated time / Partial / pedestrian opening...

UNIK RANGE

Industrial range

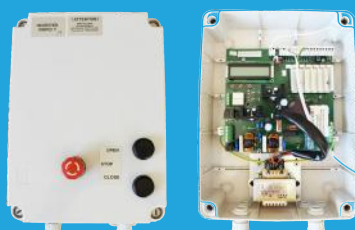

Control panels

UNIK3I-V2
UNIK3I-V2 -EF-R

.....
for 230 Vac
three-phase motor

- Industrial automation management
- Variable frequency drive
- Application on sliding gates, fast rolling doors, refrigerating doors....

UNIK3I-V2 -EF-R

MAIN FEATURES

▶ Which applications?

UNIK3I-V2 sliding gate motors
UNIK3I-V2-EF-R high-speed and sectional doors

▶ Special features

UNIK3I-V2 : specific soft to sliding motors / optional : electro - brake control management module (réf. UNIK3I-V2-EF)

UNIK3I-V2 -EF-R : up / down /stop button on the cover / specific stop / electro-brake control module

▶ The "+"

Inverter / removable memory module / motor encoder management / easy programming multilingual menu / IP56 box
